Subject: Area Command

David,

though I've made substantial progress towards "right-sizing" our approach for Gold King Mine, I don't think that Area Command will be disbanded before I leave. I've heard that you'll be returning to Durango sometime Wednesday. Will you be able to re-join Area Command? Or should I look for a R8 OSC to come down to assume the mantle? Please let me know so I can provide sufficient heads-up to those who need to know. Thank you,
lw
